Encounter Date
01/23/18

Patient Information
MCKINNA, ALICE M
DOB - 02/23/28
1335 SOUTHFORK TRL
REDDING CA 96003

To Whom It May Concern:

Alice McKinna and her husband Robert Nelsen have been my patients at Mercy Family Health Center since September 2016. During this time, I have seen Ms. McKinna's dementia worsen. Montreal Cognitive Assessment (MOCA) performed in my office today shows a score of 10, consistent with very significant dementia. Since September 2016, I have had office visits with Ms. McKinna every one to two months. At each visit, Mr. Nelsen has expressed concern for his wife, and his actions have been that of a very attentive, concerned partner. I have seen no actions or behavior on his part that would be consistent with any other motives.

Please contact me at Mercy Family Health Center, 2480 Sonoma St. Redding, CA 96001 with any questions or concerns.

Sincerely,

Daniel Stoll, MD
