April 25, 2019

Dear Nancy:

I am writing to you with sadness in my heart. When the trust between a mother and daughter is broken there is nothing left in the relationship.

I want you and your boyfriend to stop harassing me and interfering in my life.

This letter is to inform you that I do not want to see you, and I do not want you to call me.

Let me be very clear, do not try to contact me or call me.

Your Mother,

Alice McKinna

Declaration:

Alice McKinna has conveyed to the undersigned below, some but not all, the reasons why she does not want to see her daughter, Nancy Pace.

Nancy has tried to break-up our mother's marriage of twelve years to Robert Nelsen. Nancy told her sister, Judy Burgess, "I am going to get his ass kicked out, meaning Robert Nelsen, and put mother in a nursing home" She has tried to gain control of our mother's financial affairs against our mother's wishes. She has told our mother that she will never see her great grandchildren or great children in her home again, if her husband is living with her. Nancy Pace has filed multiply false police reports, elder abuse claims, and court restraining orders against Robert Nelsen that have proven by the Shasta County Adult Protection Service, and the Redding Police Department to be unfounded. Nancy Pace and her boyfriend, Gary Eiler, have interfered with our mother's relationship with her long-term caregiver, and now she and her boyfriend have attempted to intervene with the owner of the Redding office of Comfort Keepers, our mother's new caregiver service. Nancy Pace and her boyfriend have harassed our mother's husband, Robert Nelsen, and her son Ray Nicol. Nancy Pace's boyfriend, Gary Eiler, attempted to forcibly enter our mother's home on Memorial Day weekend 2018 while Nancy Pace stood behind her boyfriend screaming "you are all going to jail."

The statements above were expressed to us by our mother over the past two year, and can be verified with court records, letters, phone messages, affidavits, and three Shasta County Court Investigator's reports that can be reviewed in the Shasta County Probate file No. 29540

We further believe, jointly and independently, that our sister has caused our mother, severe mental trauma.

Judy Burgess
